Remarks:

1. Please refer to AL250EVB schematics for connection between decoder and the AL250.
2. LCD of resolution other than 640x480 may require a zoom engine.
3. SEL can use either H/W or S/W control. High: PC VGA, Low: TV.
4. Decoupling capacitors are needed for each CMOS IC.
5. Load resistance of 75 ohm is still needed for the AL250 RGB output.
6. Preliminary information for reference only.
